

Coming Spring of 2009

From Ground Breaking... To Breaking New Ground

Finally a home that works in harmony with your life.

There's a new breed of builder in the upstate with the vision, talent and ambition to create a home that works in concert with your life. Milestone Custom Homes has long been known for beautiful homes but now we're taking the experience to the next level with new energy, new ideas and capabilities in building. **The Inspiration Home** will open its doors to the public in Spring of 2009 and reach beyond current home technologies to showcase how a home can deliver convenience and effortless function and connect a

family day in and day out. For more information or to track the progress of **The Inspiration Home**, visit our site at www.inspirationhomesc.com. To become a part of **The Inspiration Home** contact Nancy Long with Community Journals at 864.679.1245 or email at nlong@communityjournals.com.
